IT'S OUR TURN TO SAVE AMERICA
REDEEM THE DREAM NOW

SIGN OUR 2nd DECLARATION of INDEPENDENCE: **A petition to end the runaway government of our time, so we can all start the new era of 100% activism to restore everyone's American Dream OVER-NIGHT, in a simple 3-step RTDNOW Plan.**

REDEEM THE DREAM NOW (RTDNOW), a peaceful movement to uphold, affirm and update our sacred American values, derives vision from the 1st Declaration of Independence and seeks to finish the job our founding fathers started.

The ultimate and only power we have to restore everyone's American Dream is to update our founding documents, to end runaway government and enact policies to make the US economy work for the American citizen, each and every day.

The original founding fathers of 1776 started our country with solid foundational documents espousing a perfect vision of Universal Citizen Equality, under a functioning, true government of by and for the people, with 'local self-rule'. They specifically wrote that in the face of tyranny, "it is our right, it is our duty, to throw off such government, and to provide new guards for our future security". Let us therefore review the reasons we are compelled to write, and all read and sign, our 2nd Declaration of Independence from modern runaway government, called RTDNOW: Redeem The Dream Now, with an RTDNOW Plan to start being enacted in 2020 that provides the new guards for ALL our individual, and collective, safety, and current, and ongoing, prosperity.

There exists a fundamental flaw in the institution of the US Electoral College, from an unfinished compromise as far back as 1775, which over time has discouraged voter turnout and provided little incentive for all citizens to feel they have a true voice in their own democracy.

Our three branches of government have become nothing less than a plurality of monarchies exercising executive powers, and executing side deals with black budgets all conceived to circumvent the inherent checks and balances.

The banking and financial system, which was supposed to be regulated by us, our government, has been hijacked by regulators purchased by special interests, permitted the theft of our treasury and landed us in a 50 year quagmire of economic stagnation.

Politics have suffered from such widespread corruption that our government is no longer for the people. It funnels 90% of our wealth to an oligarchy of corporations who pay to have laws and policies changed, which both perpetuates and accelerates the US toward collapse.

Professional politicians have spent decades racking up $20 trillion in debt delivering false promises, false information, and have pulled off the largest robbery in the history of mankind, virtually looting the American Treasury, through the manipulation of media and money in politics.

Economic inequality in society today has become so profound, so abusive, so commonly accepted, yet it has become equivalent to a modern master and slave relationship. The reckless global money class has perpetuated this economic apartheid while hiding behind patriotism and using fake wars to misdirect and divide the American people.

Our form of government, now antiquated after 250 years, remains perpetually paralyzed and incapable of representing the interests of the average American because it's overrun by corporate and global money.

Back in 1777, the founding fathers warned of political parties gaining centralized power and being overrun by corporate money, stealing control of the treasury and money supply, and thereby controlling the spigot on how much American Dream we all get.

This epic battle fought over 250 years is coming to a climax in the next 10 years with a show of massive debt and the loss of our manufacturing base. Over 70% of jobs are retail, with a minimum wage which has stagnated for 30 years while the cost of living has tripled.

This is not a proposal for a revolution, but a "Rapid Evolution" back to the America which was conceived in the founding documents. Rebuilding of the American Dream is a sacred timeless task. This is our time, this is our moment to become our best selves as citizens and as a collective whole.

REDEEM THE DREAM is our chance to start again and do things the way we've all dreamed they should be done, to build a country which ensures the prosperity of every American family, every single day. 300 million voices as 1 can achieve much. We pledge together to chart our path forward firmly and in a civil manner. This is our evolution to be actively involved in government and to embody what our founders envisioned it, the voice of the people.

We affirm the American Spirit and American Ingenuity, reaffirm our sacred values of freedom and liberty, together pledge to save America and restore everyone's American Dream

In such times of widespread and prolonged national distress that has perverted our natural form of government to favor the corporation over the citizen by changing laws and paying off politicians, all 300 million citizens are asked to add their name in a new era of 100% activism to restore a true government of, by and for, We the People, and so it shall remain that way and we shall all prosper for the next 250 years. It's our turn to reclaim America for the ordinary citizen. 300-million-as-1, REDEEM THE DREAM NOW by adding your name.

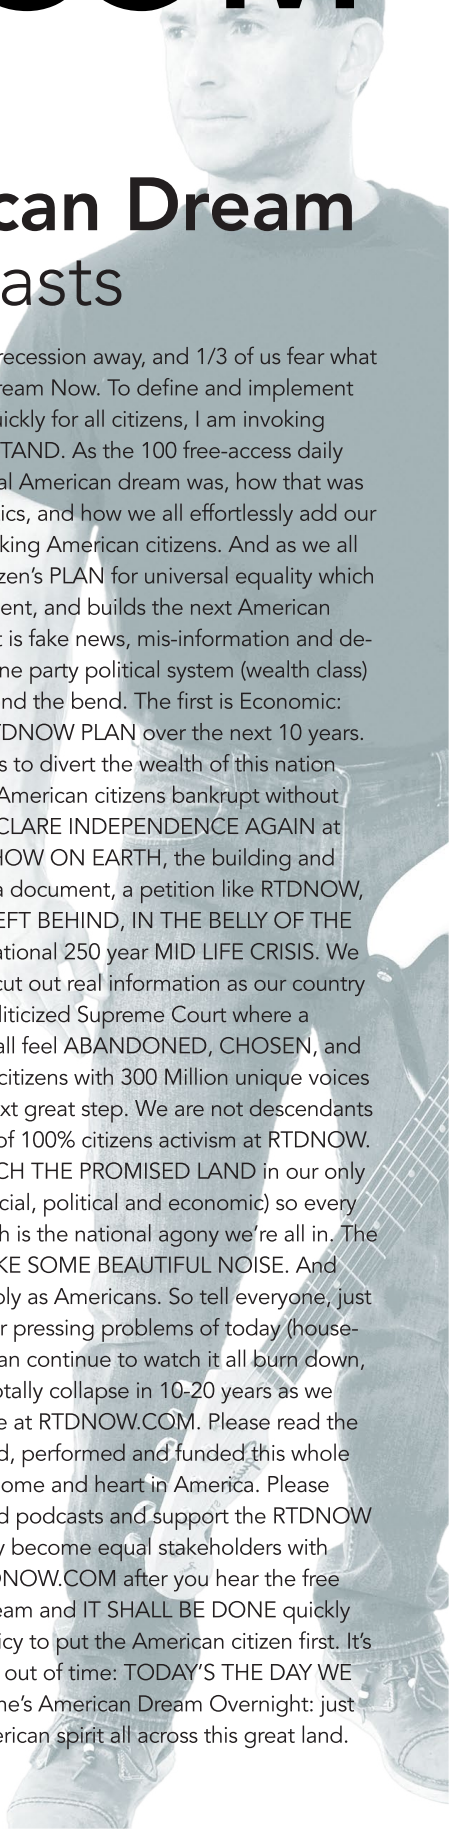
The Real Story of the American Dream
in 100 Songs and Podcasts



My friends, when 100 Million (1/3) of all Americans live below the poverty line, 1/3 of us just above one recession away, and 1/3 of us fear what the future may bring, it's time for a new, 300 Million As 1, national mission to Redeem The (American) Dream Now. To define and implement the next Dream for every American and do it overnight using our cell phones. And to accomplish this quickly for all citizens, I am invoking the power that created America, to save it again from total economic and social collapse: UNITED WE STAND. As the 100 free-access daily Redemption Songs and Podcasts of THE ROCK OPERA TO SAVE AMERICA tell the story of what the real American dream was, how that was dismantled over the last 50 years by a global elite wealth class through tidal waves of money in our politics, and how we all effortlessly add our names at RTDNOW.COM to return this country and its future to its rightful owners: 300 Million hard working American citizens. And as we all add our names we once again find and invoke the WILL OF THE PEOPLE supporting the RTDNOW Citizen's PLAN for universal equality which instantly doubles the net household income of 90% of all Americans overnight, ends Runaway Government, and builds the next American Dream engine in every home in America over 10 years. Since real JOURNALISM IS DEAD and all we get is fake news, mis-information and deceitful news, I wrote this rock opera to reach every single American directly because our present failed one party political system (wealth class) has become a daily FREAK SHOW ARCADE. There is more than one JUDGMENT DAY coming just around the bend. The first is Economic: America will fail as a nation unable to pay debts if we do not act as a people now and implement the RTDNOW PLAN over the next 10 years. The second is voting out all failed career politicians in 2020 forward who have taken corporate donations to divert the wealth of this nation to the global wealth class elite over decades and leave America and 300 Million Ordinary hard working American citizens bankrupt without a path forward. That's why I'm asking every single American, 300 Million As 1, to add their names to DECLARE INDEPENDENCE AGAIN at RTDNOW.COM by just adding your name. This is YOUR PERSONAL INVITATION to THE GREATEST SHOW ON EARTH, the building and rebuilding of the American Dream. Our nation was born with 56 visionaries DREAMING OF US signing a document, a petition like RTDNOW, declaring freedom from tyranny and oppression. Today, when half our people, 150 Million, have been LEFT BEHIND, IN THE BELLY OF THE BEAST of runaway government controlled by Mega Corporations, it explains why America is having a national 250 year MID LIFE CRISIS. We don't know who we are anymore because JACK THE RIPPER of corporate media and money in politics cut out real information as our country was illegally taken from its citizens in 2010 as corporations were made 'artificial citizens' by an invalid politicized Supreme Court where a majority represented corporate donors, not the real people in America. This is why 300 Million As 1 we all feel ABANDONED, CHOSEN, and SPECIAL. THE FUGUE IS OVER, the fugue, the great forgetting of who we are as Americans, is over. As citizens with 300 Million unique voices and as a collective power, we the real people are always the only way we push America forward to its next great step. We are not descendants of fearful men. TODAY'S THE DAY we put America back on its true course of citizen rule in the new era of 100% citizens activism at RTDNOW.COM. It's free and easy to RIDE THE RTDNOW TRAIN TO FUTURE PAST so every single one of us REACH THE PROMISED LAND in our only true founding document, our 1st Declaration of Independence. Our new land of Full Citizen Equality (social, political and economic) so every single American has a fully complete American Dream, not just fragments and unfulfilled promises, which is the national agony we're all in. The only way to have the country you were promised and live your full American Dream, right now, is to MAKE SOME BEAUTIFUL NOISE. And today it's almost all done online. It's time for all American Spirits to re-identity to how we all started: simply as Americans. So tell everyone, just CALL ME AMERICAN. That is the path forward to come together in common purpose to fix all our major pressing problems of today (household economics/Runaway Government/build the next American Dream engine) in one fell swoop. You can continue to watch it all burn down, as it has now for four torturous decades of decline in our standard of living until the point America will totally collapse in 10-20 years as we reach $40 trillion in national debt, or you can lend a hand. EVERYTHING STARTS SOMEWHERE like here at RTDNOW.COM. Please read the RTDNOW PLAN (RTDNOW.COM/Movement/About) and then add your name. I have personally created, performed and funded this whole effort to date and now need everyone's help, your help, to take the RTDNOW MOVEMENT into every home and heart in America. Please subscribe for $1.00 per month to do your part and get THE GREAT DEAL. All 100 redemption songs and podcasts and support the RTDNOW movement across America. As we all subscribe, we all start to live the Equality we seek as we all instantly become equal stakeholders with equal voice in the restarting of the American Dream and next America. Actively tell everyone about RTDNOW.COM after you hear the free redemption song telling our story. The REAL story of the birth, loss and redemption of the American Dream and IT SHALL BE DONE quickly IN AN ONLINE STAMPEDE as we all add our names at RTDNOW.COM 300 Million As 1, to change policy to put the American citizen first. It's not complicated to fix our problems, it's complicated to get everyone to want to do it. But now we're all out of time: TODAY'S THE DAY WE ALL BECOME SUPERMAN to Save America from total economic and social collapse and restore everyone's American Dream Overnight: just by adding our names 300 Million As 1 at RTDNOW.COM. I've done my part, the rest is up to every American spirit all across this great land. Let the daily redemption songs inspire you. Then get busy just telling everyone RTDNOW.COM
